

LockerSense™

- ▶ Enhanced with 6, 12 and 18 weighing locations
- ▶ Fast transaction
- ▶ Accurate piece count control
- ▶ User accountability
- ▶ Easy to replenish

The LockerSense is designed to keep items secure without the need to scan each item. Simply identify yourself, take what you need and let the scale do all the work - it's the new way for fast and accurate inventory.

Product Details	
CONSTRUCTION	Steel and acrylic windows
WEIGHT	254 kg per frame plus the weight of scales
SCALE DETAILS	Stainless steel pan
COLORS	Blue
POWER	230V AC, 3A
All SupplyPoint Solutions offer: • SupplyPoint software • 24/7 availability • Reduced product consumption • Improved productivity • Lower inventory costs • Optimised inventory • Convenience and simplicity	

Standalone or Add-On

Can be used as a standalone solution or included as part of a larger SupplyPoint™ installation.

Locker Options

Small, medium, and large size locker compartments are available. Scales currently available in medium compartments only.

Specification

Standard Weighing Pad:

- Minimum individual item weight 5g
- Maximum total weight of all items in one compartment – 8kg

Combined with our powerful SupplyPoint inventory management software the LockerSense compliments our extensive product range to efficiently control an even greater range of your essential inventory

EXPANDABLE AND VERSATILE

Can be specified with a mixture of different size lockers to provide between 9 and 27 secure locations in a single frame. Up to 10 frames can be connected providing up to 270 secure locations in a single system.

MANUAL OVERRIDE

In an ideal world a manual over-ride would never be needed. But if required, it ensures 24/7 availability to all the contents with a quick and easy manual override capability allowing access to items stored within.

EFFICIENCY

Multiple locations can be selected in one transaction minimizing the time required to withdraw several items.

COMPATIBILITY

The locker is fully compatible with all existing SupplyPoint™ machines.

SECURITY

Access to the contents in the locker is restricted by the use of: username, password, biometric identification, card readers or a combination of these options. The door locks are of a high strength and cannot be forced open in normal or aggressive use without the assistance of tools.

TRACEABILITY

The powerful SupplyPoint software provides a complete audit trail allowing management to know who, what, where and why about the usage of system managed items.

INDIVIDUAL LOCKER LIGHT

Each individual locker has it's own lighting capability, allowing full visibility of products within the locker.

*Charging option not available with LockerSense units

Locker Size

Total Height (Including lid)	Height (without LID)	Width	Depth
203cm	180cm	109.3cm	50cm

Door Sizes

Door Size	Small	Medium	Large
Height (mm)	154	254	585
